Open it at alignment365.onrender.com

01 Your Wellness Companion

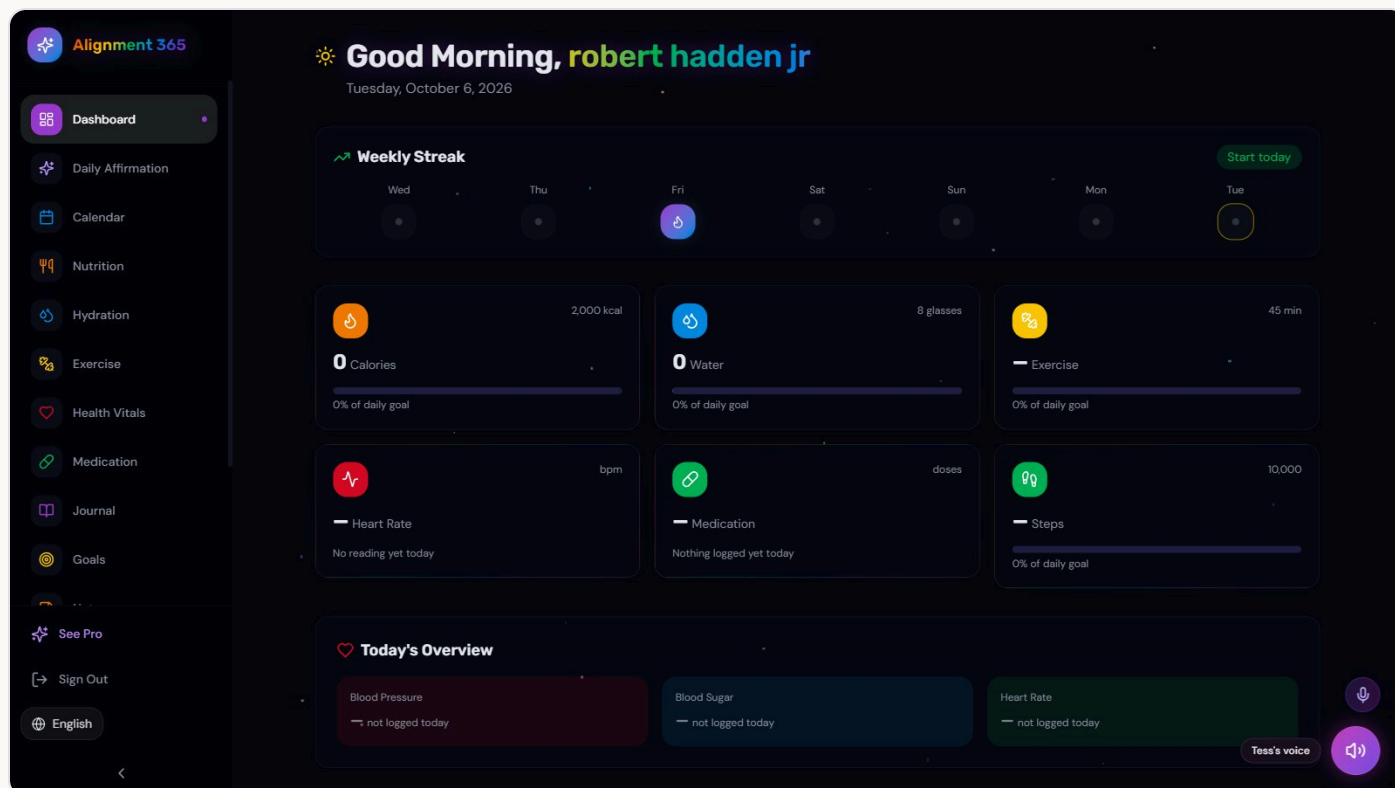

Alignment 365 is your all-in-one accountability partner for nutrition, fitness, health vitals, medication and personal growth - a safe space for your wellness journey, in 18 languages.

Get started

- 1 Go to **alignment365.onrender.com** and tap **Start Your Journey** (or **Launch App** at the top).
- 2 Tap **Create one** under "New to Alignment 365?". Enter your name, email and a password of at least 8 characters, then **Create account**. Google sign-in is offered too when it's available.
- 3 You land on your **Dashboard**. There is no setup quiz - start logging right away.
- 4 **Keep it on your phone:** iPhone - Safari, Share, **Add to Home Screen**. Android - Chrome : menu, **Add to Home screen**. Your data syncs across your devices.
- 5 Change language any time with the globe button - 18 languages, including Spanish, French, Arabic, Hindi, Tagalog, Amharic, Kiswahili and Igbo.

Your Dashboard

- **Weekly Streak:** seven day tiles; a day lights up with a flame when you log anything - a meal, water, a workout, a vital, a medication or a journal entry. Not logging yet today never breaks your streak.
- **Six tiles** that jump to their pages: Calories (goal 2,000 kcal), Water (8 glasses), Exercise (45 min), Heart Rate, Medication and Steps (10,000).
- **Today's Overview** of blood pressure, blood sugar and heart rate, and **Today's Wellness Tips** that change with what you have logged.

The sidebar: Dashboard, Daily Affirmation, Calendar, Nutrition, Hydration, Exercise, Health Vitals, Medication, Journal, Goals, Notes, Herbal Guide, Organ Health and My Profile. On a phone, open it with the menu button.

02 Log a Workout

Open **Exercise** - "Track workouts, steps, cardio, and heart rate." Three tabs: **Overview**, **Workouts** and **Steps**.

- 1 Open the **Workouts** tab and tap **+ Log Workout**.
- 2 Name it - "Leg day", "Morning ride". **Pro** members can say it with the mic.
- 3 Set **How long?** in hours and minutes, or tap a preset: **15 min, 30 min, 45 min, 1 hr, 1 hr 30, 2 hr**.
- 4 Pick a type: **Cardio, Strength, Flexibility** or **Other**.
- 5 Tap **Add Workout**. You will see "Workout logged" with the time.

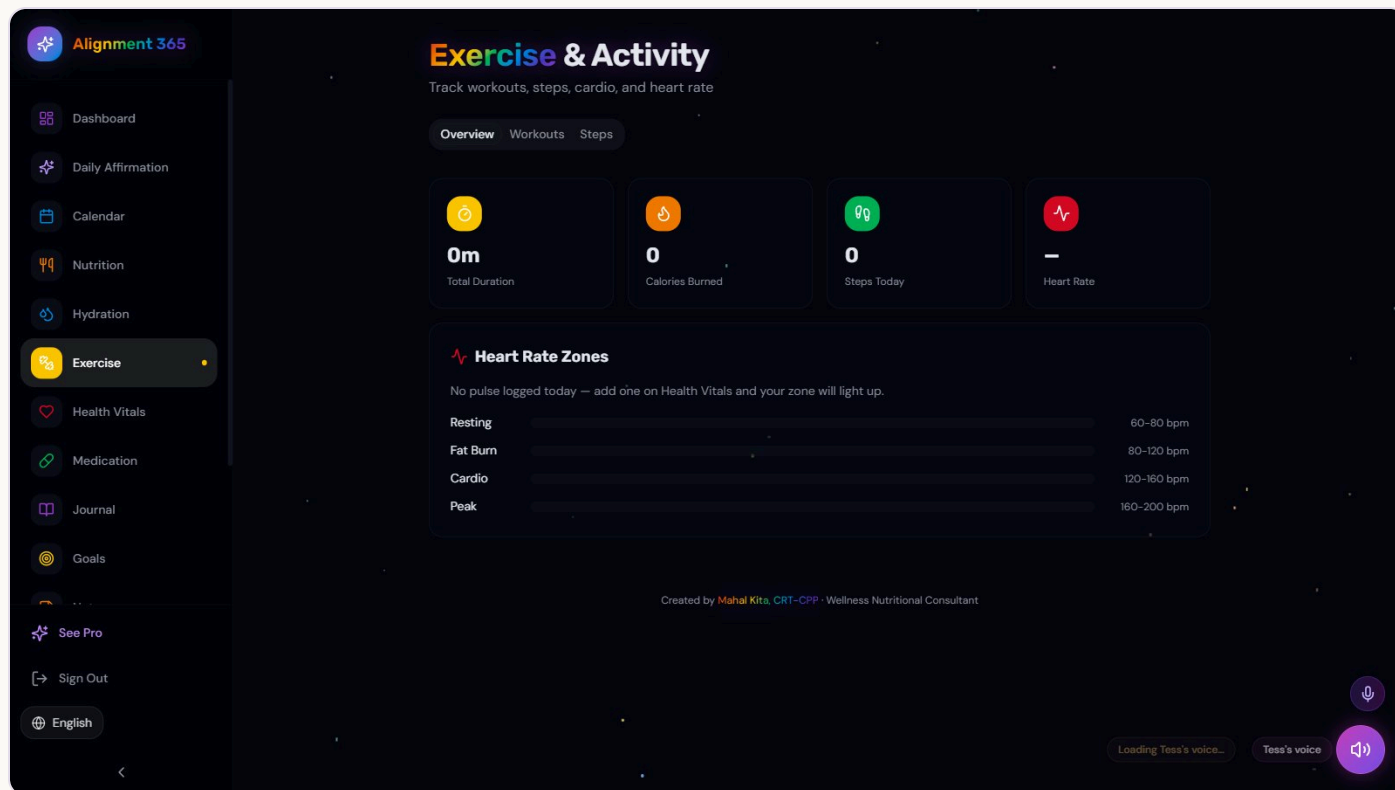

Each workout shows its estimated calories (per minute: Cardio 10, Strength 8, Flexibility 4, Other 6 - an estimate, not a measurement). Hover or tap × to remove one. Your minutes fill the Dashboard Exercise tile, count toward your weekly streak, and mark **Exercise Done** on your monthly **Calendar**.

Overview tab

Total Duration, Calories Burned, Steps Today and your latest Heart Rate, plus **Heart Rate Zones** - Resting 60-80, Fat Burn 80-120, Cardio 120-160, Peak 160-200 bpm. Log a pulse on Health Vitals and your zone lights up.

Steps tab

Tap **Start Tracking** and keep your phone in your pocket or hand - the motion sensor counts steps. No sensor? Use **+500** and **+1,000**. A ring tracks your 10,000-step goal with estimated distance, calories and active time.

Tip: the Exercise page shows today's workouts. To look back, open **Calendar** - every day you trained carries an Exercise Done dot.

03 Nutrition Tracker

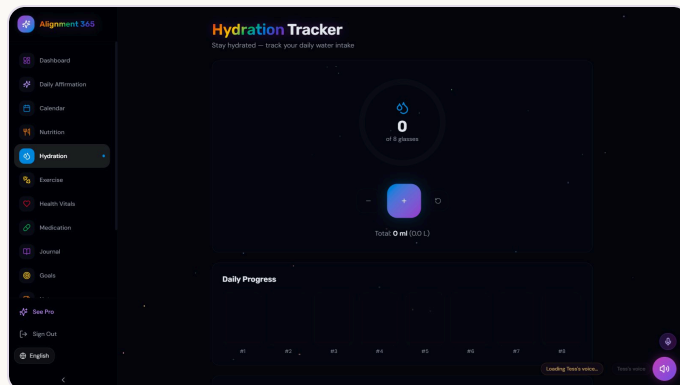

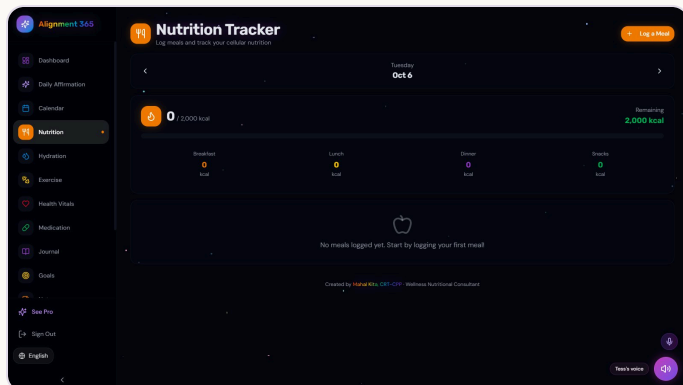

"Log meals and track your cellular nutrition." Just describe what you ate - Alignment 365 works out the rest.

- 1 Tap + **Log a Meal** and describe it: "three eggs, grilled chicken, salad". **Pro** members can speak it.
- 2 Choose **Breakfast, Lunch, Dinner** or **Snack**, then tap **Add Meal & Analyze**.
- 3 Your **Nutritional Receipt** appears: total energy, protein, carbs, fat, fiber, sugar, sodium (High, Moderate or Low), micronutrients and a nutritional insight.
- 4 Every meal gets a quick verdict - **Nourishing, Keep an eye on it, Caution** or **Hazard** - with an intake score and a "What helps" tip. A warning never stops you logging.

The calorie card counts toward 2,000 kcal with per-meal totals, and the day arrows let you look back at any date.

04 Hydration Tracker

Tap the big + for each glass (250 ml), – to undo, ↺ to reset. The ring fills toward 8 glasses, and you'll see "Daily hydration goal reached!" when you get there. Today's Log shows the time of every glass.

05 Health Vitals Pro

"Monitor blood pressure, blood sugar, and heart rate." Three tabs, each with a living illustration - a heart that beats at your last logged pulse, and a pancreas that explains your sugar.

TAB	WHAT YOU LOG	WHAT IT TELLS YOU
Blood Pressure	Systolic, diastolic, pulse	Normal, Elevated, High Stage 1 or High Stage 2
Blood Sugar	mg/dL - fasting, before or after a meal	Normal (under 100), Pre-diabetic (under 126) or High
Heart Rate	bpm - resting, walking, running or exercise	Lights your zone on the Exercise page

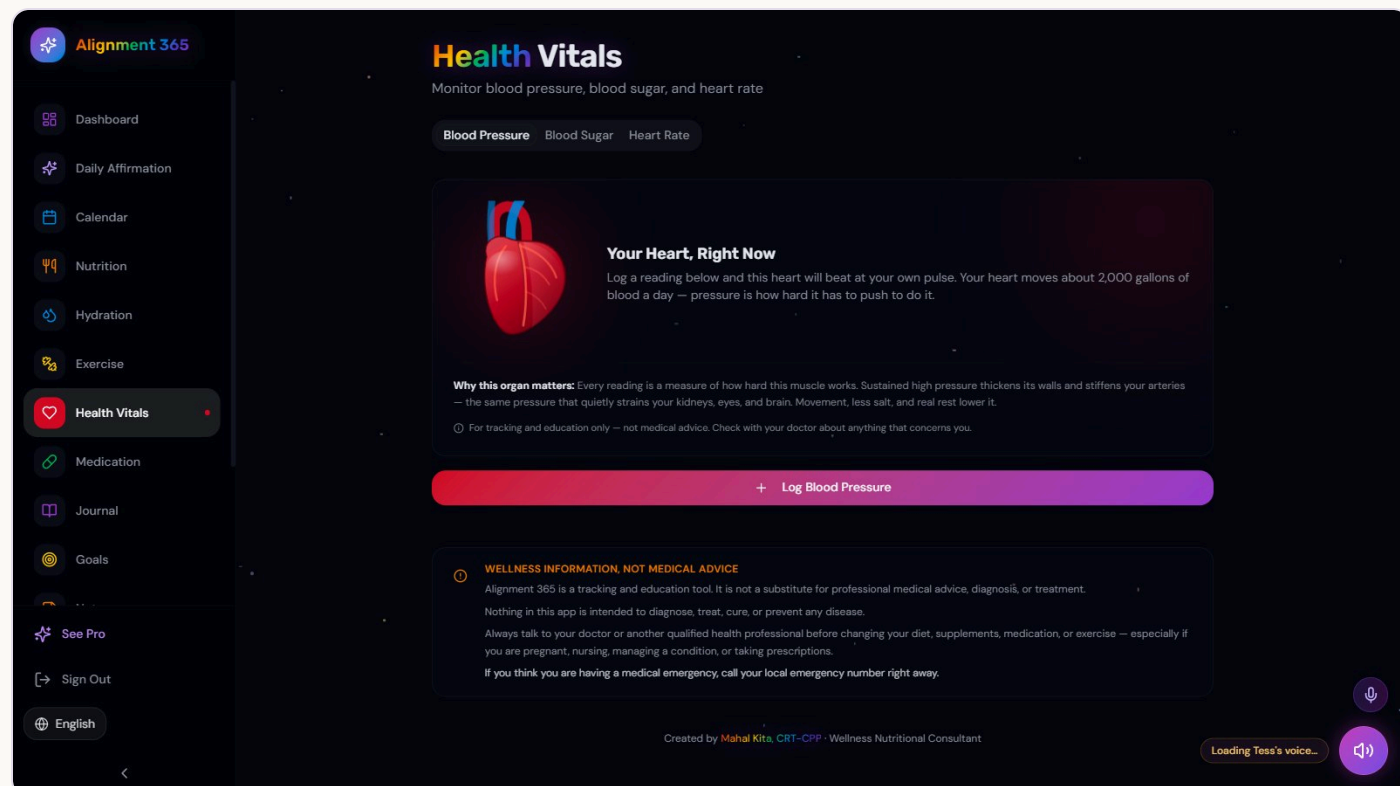

Readings you have already logged always stay visible on every plan.

06 Medication & Supplements Pro to add

Tap + **Add Medication** to add a medication's name and dosage, then tap the pill icon as you take each dose and watch "N/N medications taken today". Below it, **Vitamins & Supplements** offers quick-add chips - Vitamin D3, Magnesium, Omega-3, Vitamin C, B12, Zinc, Iron, Calcium, Probiotics, Sea Moss, Turmeric, Ashwagandha - and a **Benefits & safety** link to each one in the Herbal Guide.

07 Tess, Your Voice Companion Pro

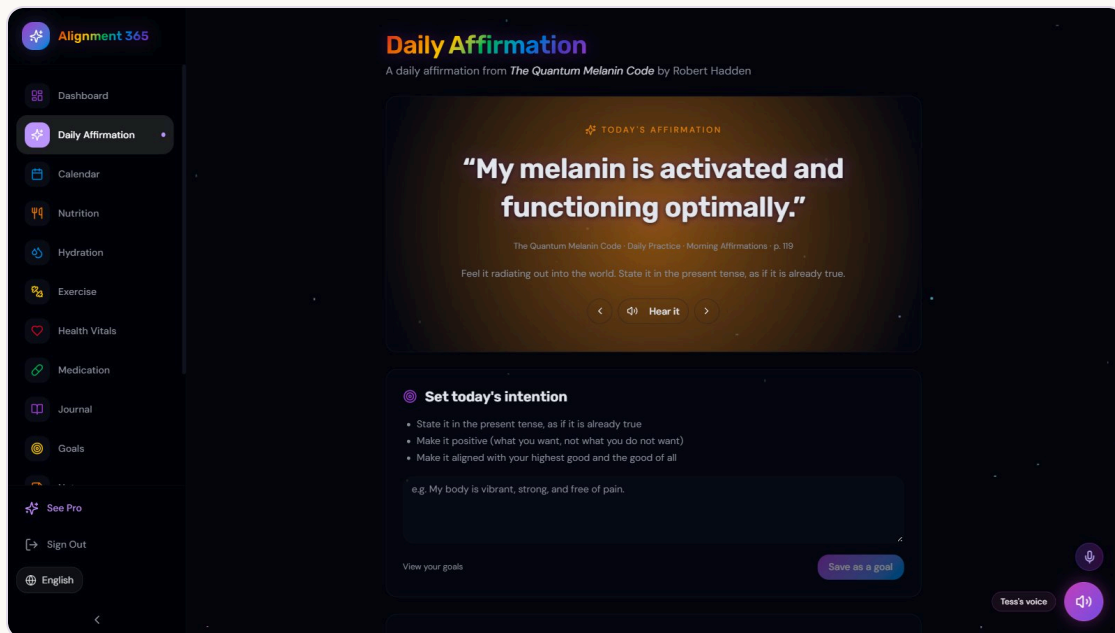

- **The orb** (bottom-right) turns Tess's talk-back on or off. She reads back your meals, verdicts and affirmations in her own voice. The first time, her voice downloads to your device.
- **Ask Tess:** tap the mic and ask about what you've logged - "How much water did I drink today?", "What was my blood pressure?" She answers out loud.
- **She knows her lane:** Tess answers from your own numbers only. Ask for medical advice and she'll point you to your doctor; mention an emergency and she'll tell you to call for help right away.
- **Voice input:** a mic beside text boxes across the app - say it instead of typing.

08 Daily Affirmation

One affirmation a day from *The Quantum Melanin Code* by Robert Hadden - with its chapter, a practice line and a glow in its chakra colour.

- Step back and forward through the days, or jump **Back to today**. **Pro**: tap **Hear it** and Tess reads it to you.
- **Set today's intention** - present tense, positive, aligned with your highest good - then **Save as a goal**.
- **Reflection**: write about synchronicities, insights, dreams and wins, then **Save reflection** to your journal.

PAGE

WHAT IT'S FOR

Journal

"Your Safe Space." Write an entry with a title and one of eight moods - Grateful, Happy, Peaceful, Strong, Reflective, Sad, Frustrated, Growing.

Goals & Ideas

Set a goal with your *why* and a category (Health, Fitness, Nutrition, Mindfulness, Personal), mark it Active, Completed or Paused. Capture ideas in their own tab.

Notes

Your digital notebook - colours, pins and search.

Monthly Calendar

Every day at a glance: Calories Logged, Water, Exercise Done, Meds Taken, Vitals Recorded. Tap a day for its details.

Herbal Guide

119 entries - Western and Chinese herbs, vitamins and minerals, fruits and vegetables - with benefits, usage, target organs, side effects and contraindications.

Organ Health

Ten organs, their key functions, a Chinese-medicine insight, and the supplements, fruits and vegetables that support each one.

My Profile

Your stats and **Favorite Guided Meditations** - save the meditations you love with a link, category, length, rating and why you love it.

10 Tune Your Frequency: Sonic Sanctuary

Alignment 365 links straight to **Sonic Sanctuary**, Mahal Kita's Solfeggio frequency sanctuary. On the Alignment 365 home page, tap **Sonic Frequencies** beside "Start Your Journey", or scroll to **Tune Your Frequency** - "Solfeggio healing tones, from 174 Hz to 963 Hz, to settle your body and focus your mind" - and tap **Enter the Sonic Sanctuary**. It opens in a new tab.

MOMENT	ALIGNMENT 365	SONIC SANCTUARY
Morning	Read the Daily Affirmation, set an intention	Morning Coherence journey
Training	Log the workout, track steps	Read your pulse, then Extended Exhale to cool down
Meals	Describe it, get your receipt and verdict	-
Study / work	Notes and goals	Deep Focus journey (852 → 963 Hz)
Evening	Journal and reflection	Evening Descent with 4-7-8 breathing

See *Sonic Sanctuary - The Complete Guide* for every tone, the heart rate sensor and the breath stacker.

Wellness information, not medical advice. Alignment 365 is a tracking and education tool. It is not a substitute for professional medical advice, diagnosis, or treatment. Nothing in this app is intended to diagnose, treat, cure, or prevent any disease. Always talk to your doctor or another qualified health professional before changing your diet, supplements, medication, or exercise - especially if you are pregnant, nursing, managing a condition, or taking prescriptions. If you think you are having a medical emergency, call your local emergency number right away.

Align your mind, body & spirit.
